DETAILED ACTION

1. Amendment filed on 5/24/06 has been received.

Continued Examination Under 37 CFR 1.114

2. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 5/24/06 has been entered.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claim 23 is rejected under 35 U.S.C. 102(b) as being anticipated by Timbers (U.S. Patent no. 3,065,827).

See figures 1 and 2, tire engaging surface 31 and 33, parallel margins 10,20, basal edge 11,21

Claim Rejections - 35 USC § 103

5. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Art Unit: 3683

6. Claims 23 and 26 are rejected under 35 U.S.C. 103(a) as being unpatentable over Jicha (U. S. Patent no. 2,862,579) in view of Peterson (U. S. Patent no. 3,357,639).

Jicha discloses all the limitations of the claim except for the sawteeth on the uppermost edge of the margins. Peterson teaches sawteeth (teeth 13 on edge of plate 17) on the edge of the tire engaging surface. It would have been obvious to one of ordinary skill in the art at the time the invention was made to have sawteeth as taught by Peterson in the chock of Jicha in order to help prevent the tire from rotating.

7. Claim 25 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

8. Claims 1-5 8-12 15 16 19 22 and 27 are allowed.

Response to Arguments

9. Applicant's arguments filed 5/24/06 have been fully considered but they are not persuasive. Arguments and amendments have not been made with regard to claim 23. The rejection is maintained. With regard to the objective evidence previously cited by the applicant, the examiner notes that the evidence presented is not accompanied by an affidavit or Declaration and therefore does not fall under MPEP 716.01(a). Furthermore, the evidence is the opinion of the magazine writer and not factual. As such the examiner does not consider the evidence to be sufficient enough to overcome the rejection.

10. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Robert A. Siconolfi whose telephone number is 571-272-7124. The examiner can normally be reached on M-F 10 am-3 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, James McClellan can be reached on 571 272-6786. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
